

SCHOOL CRISIS PLANNING & RESPONSE

Individualized
Crisis Plans.

Lockdown &
Fire Evacuation
Procedures.

Testing
Response Plans.

Vulnerability
Assessments.

Bullyproofing
Your School.

With violence increasing world-wide, we can no longer afford to be apathetic about the safety and security of our schools. Recent events have proven that regardless of location or size there is potential for disaster. Many steps have been taken to address these issues, but the only true approach is an all-hazards plan customized for your school district.

A multi-hazard plan includes best practice planning and response for all factions of your daily routine and after-hours special events. Proper crisis planning and response not only saves lives and decreases property damage, but breeds a safe, more secure, learning environment.

Secant provides a subscription service website with all templates needed to implement planning and response procedures. Workshops to train all employees in proper protocol in times of emergency are also provided.

Why choose Secant? Our staff provides expertise based on 25 years of police experience that included 13 years working in many capacities on a daily basis with nine school districts. In addition we bring three years of Homeland Security/ Emergency Management Division knowledge directly responsible for writing school emergency response plans and the training of all staff members.

This service is unlike others because we will not just provide a structure to operate within, but provide the individual leadership needed on site and behind the scenes.

The workshops train staff from all factions of your operation in crisis recognition, assessment and proper response. The content provided is from an all-hazards approach with response instructions kept simple, yet comprehensive. Specific emergency response training in areas for administrators, classroom teachers, transportation, food service, maintenance and office staff is provided.

Once plans are in place, frequent evaluation is needed to ensure they meet the ever-changing needs of your facilities. There are many ways to test the procedures you have in place. As a subscriber to this service, Secant provides leadership in conducting tabletop, functional or full scale exercises to help determine where changes or adjustments are needed.

With funding always being an issue, we offer the ability to provide information on current grant opportunities from both public and private sources. Additional assistance in writing the grants is also available.

Crisis Response Plans for:

- Administration
- Classroom
- Custodial
- Evacuation/
Reverse Evacuation
